REISSER Wood façade screw

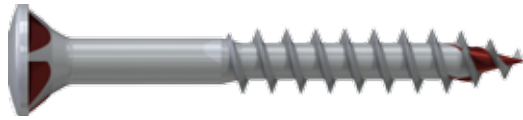

For visible outdoor attachments

Wood construction

Wood façade screw

For visible outdoor attachments

SIT®

- Fast drive finding
- Screw in without wobble
- Maximum power transmission without the risk of over-tightening
- Processing with standard bit TX possible

Raised countersunk head

- With milling pockets
- Clean countersinking in wood
- Fits perfectly and looks great

Asymmetrical thread

- Low screw-in torque
- High pull-out forces

SPI tip

- Precise and immediate screw start
- Keeps the splitting effect in wood to a minimum

Material/surface

- Stainless steel A2 self colour
- Top-coat coating reduces the screw-in resistance

RN U241

Partial thread

Area of application

- Façade construction
- Timber construction and fence construction
- Landscaping and gardening

Versions

- Raised countersunk head
- Partial thread
- SIT®
- Ø: 4.0-5.0 mm
- Lengths: 30-100 mm

Application recommendation

- Pre-drilling may be required depending on the dimensions and wood quality.
