REISSER STRONGI®

The strong screw for timber construction

REISSER
SCHRAUBENTECHNIK

REISSER STRONGI®

RSS-screw for timber construction

Neat surfaces and a secure hold

- Flat and round mounted special head ensures clean edges compared to e.g. hex screws
- Integrated washer with flat head for better clamping pressure

Easy mounting with almost no friction

- W-cut thread cuts up the wood fibre and reduces the coefficient of friction of the following thread

Guaranteed reliability

- Technical approval guarantees quality

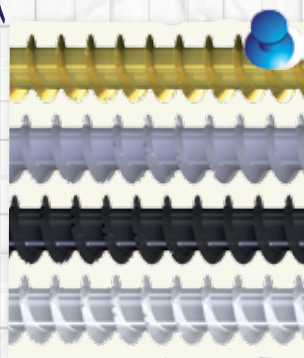

Custom colours on request

- Finish in zinc plated yellow, uncoated A2 stainless steel, RUSPERT® black and silver

Ease of inserting

- Anti friction coating reduces resistance when fastening

Field of application

Indoor and outdoor solid wood and laminated constructions. For spruce, pine and fir

- Wood structures
- Balloon framing
- Loft conversions
- Pergolas
- Play equipment
- Conservatories
- Carports
- Over-rafter insulation
- Etc.

Highlights

- Flat and round mounted special head with integrated washer
- Zinc plated yellow, RUSPERT® black and silver, uncoated A2 stainless steel
- Partial thread with W-cut finish
- Anti friction coating or RUSPERT® coating
